

Mitchell Sharma

Houston, TX. - (832)-540-6020 - sharmamitch@gmail.com - [GitHub](#) - [LinkedIn](#) - [Website](#)

Education

University of Houston

B.S. Computer Science, Minor Mathematics

May 2024

GPA: 3.84

Relevant Coursework

- ❖ CS 2436 - Programming & Data Structures
- ❖ CS 3320 - Algorithms & Data Structures
- ❖ CS 3360 - Operating Systems
- ❖ CS 3380 - Database Systems

Experience

Seagull – Front-end Software Engineer

Part-time: Aug 2022 – Present

- ❖ Developed front-end features of a start-up web application using TypeScript, ReactJS, and TailwindCSS
- ❖ Utilized Figma to redesign company homepage, improving user experience and interface aesthetics
- ❖ Implemented redesigned homepage, creating and refactoring numerous components, using ReactJS

Freddie Mac – Data Scientist Intern

Full-time: May 2022 – Aug 2022

- ❖ Collaborated with a scrum team of 8 data scientists on a computer vision project, gaining hands-on experience with machine learning using Python packages: SKLearn, TensorFlow, Pandas, NumPy
- ❖ Developed predictive models using machine learning algorithms (Random Forest, GBDT, XGBoost)
- ❖ Educated colleagues on Python, Git version control, and KubeFlow ML development platform

Projects

SACNAS UH Website

[GitHub](#) [Live Demo](#)

Aug 2022

- ❖ Developed single-page web application for the SACNAS UH student organization using ReactJS
- ❖ Implemented database using Google Sheets API to facilitate no-code updates by club leadership
- ❖ Utilized React Hooks to facilitate API calls, loading animations, and dark theme across the website
- ❖ Used React Router to reduce load times & enable smooth page transitions via client-side routing
- ❖ Designed site mockup & wireframe, including layout, color palette, and components via Figma

UH Japanese Club Website

[GitHub](#) [Live Demo](#)

Feb 2022

- ❖ Created official website for the UH Japanese Club (JLCC) using HTML, CSS, and JavaScript
- ❖ Utilized CSS Media Queries and Flexbox to develop a responsive and versatile website layout
- ❖ Applied JavaScript Fetch API to make requests to an external database hosting club information

Translator Discord Bot

[GitHub](#)

Jan 2022

- ❖ Programmed a translator bot to interface with the Discord chat platform for the UH Japanese Club
- ❖ Developed in Python, using Discord.py library for Discord integrations, DeepL API for translation
- ❖ Utilized Python Flask module to initialize the bot as an always-on web application

Extracurricular Activities

Tenet – Open Source Contributor

[GitHub](#)

Volunteer: Nov 2022 – Present

- ❖ Developing open source social media platform using NextJS, TypeScript, and TailwindCSS
- ❖ Implemented front-end features including site-wide dark theme and user notification page using NextJS
- ❖ Facilitated transition to server-side data fetching using NextJS, reducing average LCP load time by 45%

SACNAS UH – Undergraduate Support Officer

Volunteer: Jan 2022 – Present

- ❖ Developed and deployed official organization website serving 250+ members.
- ❖ Provided academic guidance to underclassmen through programming tutoring and workshops.

Skills

- ❖ **Programming:** TypeScript, JavaScript, HTML, CSS, C++, Python, R, MySQL
- ❖ **Technologies:** ReactJS, NextJS, TailwindCSS, SciKitLearn, TensorFlow, Pandas, NumPy
- ❖ **Misc:** Figma, GIMP, Photoshop, MS Office (Word, Excel, PowerPoint), Japanese language (fluent)
