Houston, TX. - (832)-540-6020 - sharmamitch@gmail.com - [GitHub](#) - [LinkedIn](#) - [Portfolio](#)

Education

University of Houston

B.S. Computer Science, Minor Mathematics

Dec 2023

GPA: 3.82

Experience

Workiva – Software Engineer Intern

Full-time (Expected): May 2023 – Aug 2023

- ❖ Expected responsibilities: Developing features and UI components for internal front-end frameworks using React, Redux, TypeScript, and Material UI

Seagull – Front-End Software Developer

Part-time: Aug 2022 – Jan 2023

- ❖ Created user-facing features for a course management web app on a startup team of 6, using TypeScript and React
- ❖ Implemented and refactored numerous components to optimize maintainability and enhance functionality
- ❖ Utilized Figma to design UI, including a redesigned landing page, improving user experience and engagement rates

Freddie Mac – Software Developer Intern

Full-time: May 2022 – Aug 2022

- ❖ Collaborated on computer vision project, gaining hands-on experience with machine learning in Python
- ❖ Leveraged SciKitLearn to develop predictive models on large-scale datasets using tree-based algorithms
- ❖ Facilitated research, information gathering, and presentation for multiple machine learning workshops

Projects

SACNAS UH Website

[GitHub](#) [Website](#)

Aug 2022

- ❖ Developed a responsive web application for the SACNAS UH student organization via React, JavaScript, and CSS
- ❖ Implemented a serverless database leveraging the Google Sheets API, enabling no-code updates by administration
- ❖ Automated image compression process via Google Apps Script, reducing events page network payload by 80%
- ❖ Leveraged React Hooks to facilitate API calls, loading animations, and dark theme across the website
- ❖ Designed site mockups using Figma, incorporating feedback from organization leadership to inform project direction

UH Japanese Club Website

[GitHub](#) [Website](#)

Feb 2022

- ❖ Created the official website for the UH Japanese Club using HTML, CSS, JavaScript; serving 250+ members
- ❖ Utilized CSS Media Queries and Flexbox to establish a responsive website layout, ensuring broad compatibility
- ❖ Applied the JavaScript Fetch API to make requests to an external database hosting club information

Translator Discord Bot

[GitHub](#)

Jan 2022

- ❖ Built and deployed a translator bot for the UH Japanese Club, interfacing with the Discord chat platform
- ❖ Developed features in Python, leveraging the DeepL API for translation, and Discord.py for Discord integrations
- ❖ Enabled daily translations for 500+ unique users across 9 Discord servers based in Japan and the United States

Extracurricular Activities

Tenet – Open Source Developer

[GitHub](#)

Volunteer: Nov 2022 – Present

- ❖ Creating an open source social media platform on a team of 6 developers, utilizing Next.js, TypeScript, and Storybook
- ❖ Implemented key features, including a site-wide dark theme, settings menu, and user notification page using Next.js
- ❖ Facilitated transition to server-side data fetching via Next.js, reducing average front-page load time by 45%

SACNAS UH – Undergraduate Support Officer

Volunteer: Jan 2022 – Present

- ❖ Collaborated with leadership to deploy a new website, serving 275+ users and improving member engagement
- ❖ Organized tech-focused community events and outreach efforts to promote equity of opportunity in STEM fields
- ❖ Provided academic guidance and mentorship to students through programming tutoring and interactive workshops

Technical Skills

- ❖ **Languages:** TypeScript, JavaScript, HTML, CSS, Python, C++
- ❖ **Front-End:** React.js, Next.js, Redux, MobX, SCSS, TailwindCSS, Material UI, Storybook
- ❖ **Back-End:** Node.js, Express, REST, GraphQL, MongoDB Atlas, Firebase, MySQL
- ❖ **Misc:** Jest, Figma, GIMP, Photoshop, Microsoft Office, Japanese language (JLPT N2)
